FOR IMMEDIATE RELEASE

## **VPApps Announces Release of a New Cost Projection System**

VPApps has developed an alternative system to the existing Job Cost and Project Management Cost Projections system in Vista™ by Viewpoint. The new product is referred to as vpPROJECTIONS™ and offers a variety of features to make the process of projecting units, hours and cost fast, accurate and secure. vpPROJECTIONS is part of VPApps WIPanalytics product suite.

Some notable elements of vpPROJECTIONS:

- Not based on "batch" system
- "Data Anchor" system locks in over/underrun variances
- Ability to input completed units
- Option to use "earned units" when actual unit information is not available
- Flexible and controllable cascading calculations
- Labor and productivity specific projection form
- More flexible filtering directly on the projection forms
- Job Close out function
- Auto-adjustment for projection overruns
- Ability to project at "cost type" or "phase-cost type" levels
- SSRS reports with our new "Dynamic Report Structuring" (DRS) provides powerful reporting
- Microsoft PowerBI dashboards used to fully leverage productivity and cost variance data

We feel this new cost projection system offers a variety of benefits over other projection systems available to Vista users. If you would like more information or a demonstration of vpPROJECTIONS and the WIPanalytics system it is tied to, please contact VPApps at the address below.

### **About VPApps, LLC.**

VPApps is a provider of software solutions to the construction industry, focusing on Vista™ by Viewpoint customers. VPApps software reflects years of hands-on industry experience in both finance and operations. VPApps goal is to provide products that increase efficiency, enhance the value, and/or simplify the use of the Vista System. VPApps offers several products including WIPanalytics™, BIDanalytics™, SECURITYmanager™, and vpDASHBOARD™, all designed to enhance the value of your existing system. VPApps is a Viewpoint Development Partner and is affiliated with The Sutor Group. For more information, please contact them at [cs@vpapps.com](mailto:cs@vpapps.com) or visit [www.vpapps.com](http://www.vpapps.com).
